

# Plastics [Formerly classified as Plastics and White Trays]

## © How to dispose

Simply put in the baskets in your local garbage station, no separation needed.

**Size limits:** Length within 120cm, Diameter within 50cm

▶ **CAUTION!!!!** ◀

- Does not pertain to business establishments.
- Please remove all labels and stickers as much as possible.
- Please remove caps and lids when applicable.
- Some larger businesses (such as Harashin) also accept plastic collection, so please take advantage of it.

## Comparison of Soiled Items That Can Be Disposed

**ACCEPTED:** Please rinse off any food remainders. No need to wash with detergent.

Ketchup Bottles

Plastic Trays

White trays

Yakisoba/noodle trays

**NOT ACCEPTED:** These cannot be put out as they are.

Items that cannot be easily cleaned cannot be recycled, so please dispose of them in **burnables**.

# Plastics

## Accepted Items:

Anything that has the  symbol.

Please note that items that contained pesticides, fertilizers, chemicals, chlorine bleach, or have unremovable stains should be disposed of with **burnables**. **[P10]**

### Food Trays (white, colored, and patterned)

- Bento Boxes
- Containers for prepared foods etc.

### Styrofoam Containers

- Cup-shaped Containers
- ※ Paper containers are being used more often for these, so check carefully before disposal. Paper marked items (紙) should be disposed of with **burnables**.

### Plastic Containers

- Tofu Packs • Egg cartons • Bottles (the nozzle part goes to landfill) • Snack trays • Lids (plastic bottle caps) etc.

## Plastic Bags and Labels (NEW!!!!)

- Bags of individually wrapped snacks, etc.
- Labels for plastic bottles etc.
- ※ Put all smaller plastic wraps in a larger plastic bag (like a chip bag).
- ※ Does not apply to bags with silver lining.

- Plastic Bags (like shopping bags)

### Accepted:

Any plastic bags containing this mark.

### NOT Accepted:

Any bags WITHOUT the symbol in the left column. However, if a plastic bag displays the following mark (even with the plastic mark) then it is biodegradable plastic and can be put in with **Burnables**.
